

EVENT TECHNOLOGY SOLUTIONS

**BRISBANE CONVENTION
& EXHIBITION CENTRE**

EVENT TECHNOLOGY SOLUTIONS

When it comes to virtual events and conferencing, web-based technologies are a cost effective and time efficient way to connect. Whether that's a small virtual group, incorporating interstate or overseas speakers into a local event, or an entirely virtual multi-day conference.

BCEC is proud to be one of Brisbane's only venues that can offer all the facilities and services to deliver everything you might need for your hybrid or virtual event. The Centre's award-winning team of AV professionals can offer event technology solutions to suit any-sized event:

- Video conferencing
- Web streaming to live audiences off-site
- Remote presentations from off-site speakers beamed into your onsite event at BCEC
- Web streaming with video conferencing

BCEC's team has done it all, with events both big and small. Let our 25 years' experience help you and your team deliver a seamless event through the use of our technology studios and suites.

Talk to our team of technical professionals via email: AVsales@bcec.com.au or phone: 07 3308 3393

HUDDLE SUITE

Enhance your event with one of our smaller, fully-equipped and private boardroom spaces.

- Perfect as a breakout room for a small group
- Host or join a virtual meeting anywhere across the country and around the world
- Purpose-built room with high quality audio and video capabilities

LIVE STREAM SUITES

Live stream your presentation directly to a conference location from one of BCEC's streaming suites.

- Live Stream suites geared towards delivering high quality at an affordable price
- Our technical team will assist you to deliver your event to an online audience in a virtual presentation environment
- A complete setup with digital podium and broadcast camera
- Green screen services available to enhance your delivery

LIVE STREAM AUDITORIUM AND STUDIO

The Centre's Auditoria and Great Hall studios are the perfect locations to deliver virtual conferencing experiences.

- Unique spaces with a signature look and feel
- Require no additional set design or custom backdrops
- Combine with premium production lighting, audio and video infrastructure for the perfect setting
- Supported by our expert team of technical specialists

BCEC PRODUCTION & EDITING FACILITIES

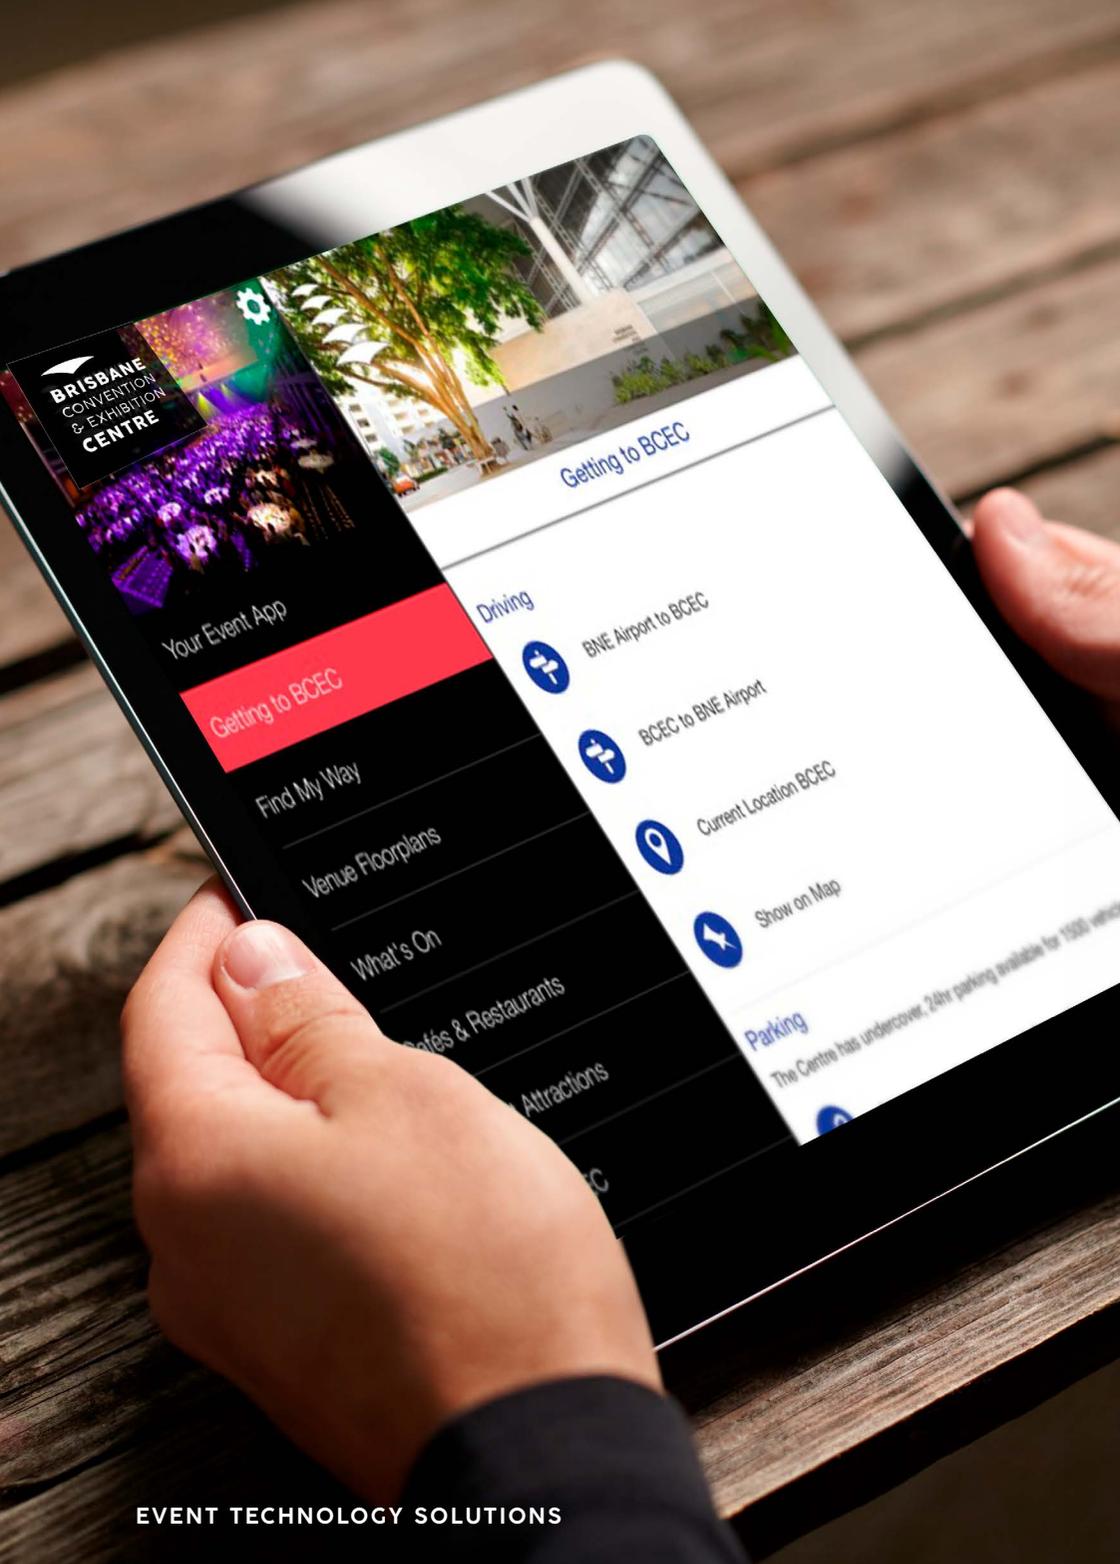

BCEC offers a state-of-the-art, on-site video and audio production studio to assist you.

- For content creation or post-production to deliver your presentations to an even wider audience
- Offering virtual performance and podcasting services supported by our on-site studio specialists

CONFERENCE APPS

Our free BCEC Live Conference App will keep your attendees up to date with event information, offering the opportunity to interact, engage and connect through:

- event schedules
- biographies
- direct messaging

With our custom technology packages, presenters and delegates can interact with real-time moderation through:

- live polling
- Q&A sessions
- lead capture
- delegate tracking systems

TECHNICAL GUIDANCE AND COLLABORATION

From delivering entire multi-day virtual conferences to vlogs, blogs and live or edited performances beamed around the world, BCEC is the only Brisbane team who has it all.

Let us help you and your team deliver a simple, seamless operation for your presenters and delegates – with peace of mind for you!

You'll be surprised how cost-effective and flexible these technology solutions can be. Contact us today to find out how we can support and enhance your next event.
